

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! You split up AT&T to create competition and eliminate a monopoly, and now my phone bill is higher than ever and getting more all the time. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

karen palmer
